Film Studies

OCR

Why study this at A Level?

Film Studies is a way to understand how and why films make us feel the way we do, and why we think some films are better than others.

Film is an indicator of social context, technological development and artistic expression.

Studying Film will deepen your awareness of how cinematography, editing, sound and performance work together to create meaning for audiences.

Course Content and Assessment

Component 1 (Film History)

This unit covers US Cinema from the Silent Era to 1990 (Sunrise; Vertigo by Hitchcock; E.T. by Steven Spielberg). European Cinema includes experimental surrealist films and the German expressionism of The Cabinet of Dr. Caligari.
